SUMMARY

Experienced Java Backend Developer with a solid foundation in web development. Proficient in Java, Spring, Hibernate, and RESTful APIs, as well as frontend technologies such as HTML, CSS, and JavaScript. Familiar with Angular (basic) and various build tools like Maven and Gradle for project management and dependency resolution. Eager to contribute to backend development and explore the exciting possibilities of Generative AI.

SKILLS

Technical Skills: Java, J2EE, Spring Boot, Spring Security, Restful API, Hibernate, Spring Data JPA, SQL, JWT, HTML5, CSS3, JavaScript, Prompt Engineering, Angular (Basic)

Tools: Gradle, Maven, IntelliJ IDE, Visual Studio, Eclipse IDE, Postman, GIT

WORK EXPERIENCE

SkilloVilla Technology Pvt. Ltd.

SDE-1

Feb 2024 - Present

Bengaluru, Karnataka

- Created an application to assist the curriculum team in generating and uploading questions, enabling them to enter prompts and quickly receive a JSON file with multiple questions, thereby streamlining the previously time-consuming individual data entry process.
- Optimized the login/signup flow by implementing a single endpoint for Email, WhatsApp, and Mobile authentication, using the Factory Design Pattern for process streamlining.
- Contributed in Creating technical content on Java and OOPs, Spring Boot, Spring Security, SOLID principle and Design Patterns for backend services.

Masai School

Internship (Assessment Assistantship)

Nov 2023 - Feb 2024

Bengaluru, Karnataka

- Evaluated students' skills in Java backend development, including core concepts and frameworks.
- Created and implemented technical questions and assessments focused on Java and backend technologies.

EDUCATION

Full Stack Web Development

Masai School, Bengaluru

Dec 2022 - Nov 2023

Bachelor's in Civil Engineering

G. H. Raisonni Academy of Engineering & Technology, Nagpur

Dec 2017 - June 2020

PROJECTS

ProCentro

- ProCentro aims to provide user-friendly features for managing projects, teams, and tasks.

Features:

- Developed features to create and manage projects, teams, and tasks for streamlined collaboration.
- Enabled task assignment, status updates, and priority management for better workflow control.
- Implemented secure login/sign-up functionality for user account management.

Tech Stacks: Java | MySQL | SpringBoot | Angular | Prompt Engg.
